The Site:

Like the 2017 Seminar, we managed to find a seminar room quite in the centre of Germany, so that the attendees from all parts of Germany would not have to travel too far.

Seminar will take place in a historical site, the former mansion of a nobleman, 1641 A.D.

Today, the site is mainly used for scientific studies by the chamber of agriculture, but open to 3rd party conventions, conferences, seminars.

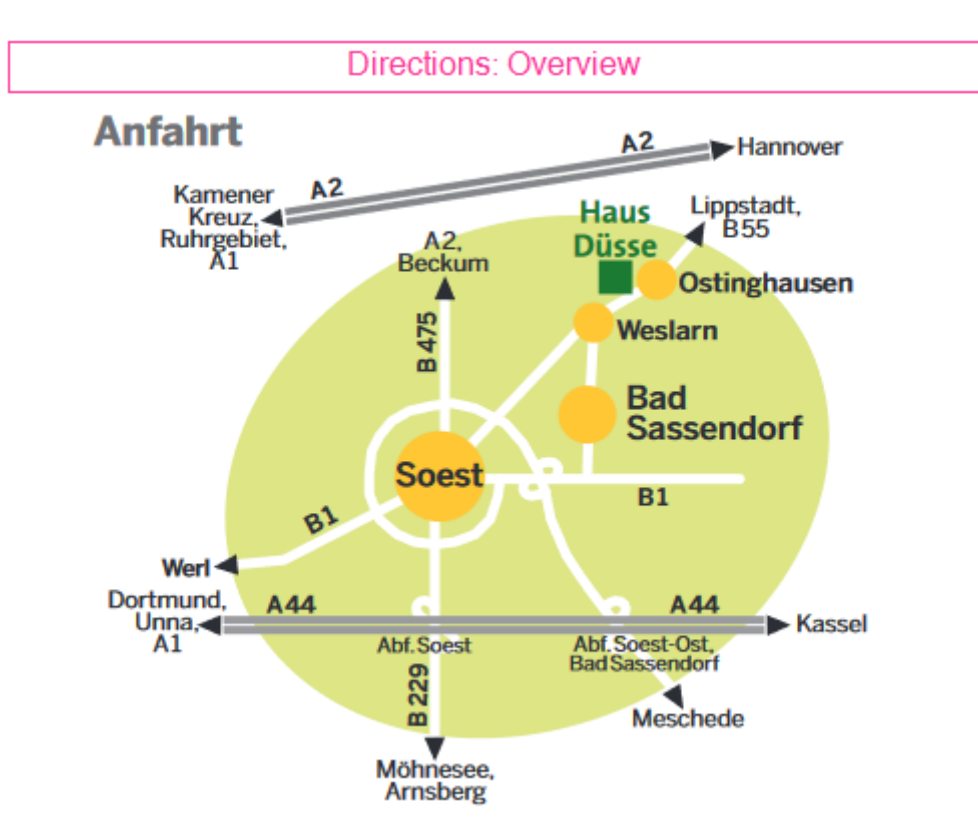

The site can host up to 1.200 guests in 17 seminar rooms, and offers modern conference technology for affordable prices.
